RESPONSE CAPABILITY

NATIONAL CDEM PERFORMANCE SCORE
National CDEM performance is determined by the average score across 16 CDEM Groups. In 2015, the National CDEM capability score was 70%.

Year	%
12	60
15	70

Note: CDEM = Civil Defence & Emergency Management. The assessment was last conducted in 2015. A maturity index was used to categorise performance as unsatisfactory (0-19%), developing (20-59%), Advancing (60-79%) or mature (80-100%)
Data owner: MCDEM

ACCESS TO WELFARE CENTRES
In 2015, the measure 'possible sites for welfare centres are pre-identified; logistical requirements are considered [capacity, power, sewage, water, communications, catering, access etc]' received a score of 84%.

Year	%
12	80
15	84

Note: The assessment was last conducted in 2015. A maturity index was used to categorise performance as unsatisfactory (0-19%), developing (20-59%), advancing (60-79%) or mature (80-100%)
Data owner: MCDEM

RAPID DEPLOYMENT OF CRITICAL RESOURCE
In 2015, the measure 'consequence-based planning is used to assess likely resources needed for response' received a score of 65%.

Year	%
12	55
15	65

Note: The assessment was last conducted in 2015. A maturity index was used to categorise performance as unsatisfactory (0-19%), developing (20-59%), advancing (60-79%) or mature (80-100%)
Data owner: MCDEM

RAPID DEPLOYMENT OF CRITICAL RESOURCE
In 2012, the measure 'a database of public and private transportation resources is kept and maintained' received a score of 60%.

Year	%
12	60
15	60

Note: This measure was not assessed in 2015. A maturity index was used to categorise performance as unsatisfactory (0-19%), developing (20-59%), advancing (60-79%) or mature (80-100%)
