To: Civil Aviation Bill
Subject: Civil Aviation Bill

Dear Sirs,

As a private pilot, I have become interested in the workings of the CAA and have attended a number of pertinent events, including discussion of ADS-B, PBN and last year's international AOPA conference.

With reference to the Civil Aviation Bill, I have read the submission of the Aviation Forum on the Bill and am writing to support this submission

The opportunity to refresh the Act does not come along very often and I strongly believe it should be undertaken carefully with the goal being a greatly improved and pertinent framework.

Yours sincerely,

Tom Schnackenberg
